The report is based on official sources. While every attempt is made to interpret information accurately, full reliability is not guaranteed. No part of this report may be reproduced without permission from, and attribution to, the International Grains Council.

NOTES ON THE TABLES

Data in this publication are derived from reports to the Secretariat of the International Grains Council made by members of the Food Aid Convention in accordance with their obligations under the Convention, supplemented, in some instances, by information provided by the World Food Programme.

TABLE 1: ANNUAL SHIPMENTS: 1996/97 - 2001/02

The table summarises donors' aid shipments made during each (July - June) year under the Food Aid Conventions (FACs) 1995 and 1999.

The figures refer to **shipments** of grain and other products actually completed during each year, and do not necessarily represent the performance of members in relation to their annual FAC commitments. No account is taken, for example, of the "caps" on eligible shipments of certain products which were introduced in the 1999 FAC.

All quantities are expressed in terms of their **wheat equivalent** (see note to table 2). The totals include attributions to the FAC of shipments made as a result of donors' contributions under the WFP's Immediate Response Account (see note to Annex 3).

TABLE 2: DETAILS OF OPERATIONS IN 2001/02

Table 2 gives full details of shipments by each member between 1 July 2001 and 30 June 2002. **Column 1** lists the final recipients. In **column 2**, channelling is indicated by an abbreviation of the name of the agency involved (see page v for a key to all the abbreviations used in the tables)

Column 3 shows the type of grain or product shipped, and **columns 4 and 5** show the amounts. The figure in **column 4** is the actual tonnage, while **column 5** gives the wheat equivalent. The factors used to derive the **wheat equivalents** of the different eligible products, and of cash contributions by donors, are either laid down in the FAC*, or calculated according to the methods specified there. In the case of cash contributions, and donations of rice, the formula is based on "prevailing international market prices of wheat", which change from year to year. For contributions in 2001/02, the prevailing price for wheat was \$132/ton and the prevailing ratio used to calculate the equivalent of contributions of rice was 1.8.

Members of the 1999 FAC express their commitments in terms of tonnages of wheat equivalent, or in value, or in a combination of the two. Only the European Community** expresses part of its commitments in **value** terms. These operations are marked "V".

Some members whose commitments are expressed in tonnages provide all or part of their contributions in the form of **cash** with which food aid products are to be bought, either in the recipient countries themselves ("local purchases"), or from third countries. These are identified in **column 6**. In the latter case, the country of origin is shown in **column 7**. Column 6 also shows any aid shipments which were not in the form of outright gifts. Long-term concessional credit transactions, for example, are marked "CREDIT".

Column 8 shows the month or period of the shipment, where reported.

* See Article V and Rules 3 - 7 of the Rules of Procedure

** And its Member States

ANNEX 1: PAYMENTS OF TRANSPORT AND OTHER OPERATIONAL COSTS IN 2001/02

Under the FAC, donors are encouraged to bear the costs of transporting and delivering their food aid contributions beyond the f.o.b. stage, especially in emergency situations and for shipments to priority recipient countries. Annex 1 shows the quantities accompanied by these additional payments and the total amounts paid (in US \$) for this purpose.

ANNEX 2: CONTRIBUTIONS IN 2001/02 INVOLVING THE PURCHASE BY DONORS OF PRODUCTS FROM DEVELOPING COUNTRIES

In accordance with Article XII of the FAC, 1999, several members purchased grain or products from developing countries (“triangular transactions”) or from the recipient countries themselves (“local purchases”) as part of their aid operations. Reported triangular transactions, swap arrangements and local purchases (as shown in detail in Table 2) are summarised in this Annex.

ANNEX 3: IEFR IMMEDIATE RESPONSE ACCOUNT: FAC ATTRIBUTIONS IN 2001/02

Because these cash pledges are pooled, individual shipments of aid under the WFP’s Immediate Response Account cannot be attributed to individual donors, nor can commodity costs be separated from the transport and administrative expenses involved in the shipment. Donors have agreed a formula enabling them to count their pledges to the Account against their FAC obligations. For contributions against their **tonnage commitments**, it is assumed that 50% of the cash is used for the purchase of eligible foods. For **value commitments** (which include transport and other operational costs), all the cash donated is counted.

* These figures refer to the wheat equivalent of actual shipments completed during the years shown. They are not adjusted for product limits under Article IV of the Food Aid Convention 1999 and do not necessarily represent the performance of members in relation to their annual commitments.

- a) Wheat equivalent of cash contributions as calculated on the basis of the "prevailing international market price". These figures therefore do not correspond to quantities actually shipped.
- b) Includes contributions under IEFR - Immediate Response Account (IRA), as reported by WFP and detailed in Annex 3.
- c) Norway made its entire FAC commitment available to WFP in the form of cash during each of the years shown, but actual shipments, as reported by WFP, may not have been completed in the corresponding period.
- d) Includes EC contributions of cash to recipients totalling Ecu 84.7 m. reported as 583,693 tons notional wheat equivalent, to be used for the purchase of grains by recipients.
- e) Includes FAC "value" contributions totalling €156,504,384 reported as 531,749 tons notional wheat equivalent
- f) Includes FAC "value" contributions totalling €181,049,943 reported as 628,659 tons notional wheat equivalent
- g) Provisional data
- h) Includes total wheat equivalents of incomplete records of 14,385 tons (Tonnage Commitment) and 5,885 tons (Value Commitment) as reported by the EC, which are not listed in Table 2
- l) Includes FAC "value" contributions totalling €137,338,267 reported as 599,462 tons notional wheat equivalent
- E Estimate

a) For explanation of abbreviations see page v.

e) Grain purchased by donor in another country, or local purchases. See Annex 2 for details of triangular transactions involving purchases in developing countries and local purchases.

E Emergency

R Refugees

V Value contributions. Wheat equivalent shown is nominal, based on prevailing international market price of wheat.

z Incomplete data received. The eligible amount has been estimated by the IGC Secretariat.

CREDIT - Indicating sales on concessional long-term credit or sales for the currency of the recipient country.

CASH - contributions made in the form of cash to purchase food for the recipient countries. Wheat equivalent shown is evaluated at the "prevailing international market price". For 2001/02, the prevailing international market price was set at US\$132 per ton

Year of obligation 2001/2002, except where indicated as below:

+ Year of obligation 2002/2003.

~ Year of obligation not specified.

* As adjusted by the IGC Secretariat in accordance with the provisions of the Rules of Procedure.

ANNEX 1

TOTAL	15,055,115	11,494,800	57,027

a) As reported by WFP

b) At prevailing international market price for 2001/2002 (US\$132 per ton).

c) Includes 3,253 tons representing the wheat equivalent of cash provided under FAC "tonnage" contributions. The remainder represents the notional wheat equivalent of "value" contributions which, in order to make this figure comparable with Table 2, is based on 50% of the value contribution of €9,173,058
